

Project Title: Mind the Step

Hosted By:

Project Introduction:

?If you are looking for the way technology is embedded in our society now and in the future Mind the Step is the place to be. Each year more than 70.000 people visit the exhibition, among them Queen Maxima and other members of the Royal Family, various ministers, politicians, mayors, aldermen, captains of industry and many others interested visitors. Many are amazed, thrilled and sometimes puzzled by what design and technology can produce if they work together synergistically. Mind the Step is not just an exhibition, it is a platform for an ongoing exploration and debate about how technology can contribute to a better society through design. For more information about the projects check out the website below.
