

## Project Title: Sweet Chemistry

**Hosted By: Miriam Sanders + Harm Rietveld**

### ***Project Introduction:***

This collaboration between an artist and a craftsman originated from a mutual love for creating things that connect people. Things that make people smile and bring positive energy to this world. They both are excited to work together in order to create something new and sparkling.

### ***About Organisation:***

'Sweet Chemistry' is a collaboration between 2 professionals who are working independently in their own creative fields.

## Individual Participants

**Name: Harm Rietveld**

**Project Name: Sweet Chemistry**

### ***Project Introduction:***

'Sweet Chemistry' is a series of one of a kind lighting objects with an inspiring mix of wood, led lights and coloured resin.

The project is originated from a love for cocktails and the starting point is to enhance the overall sensory experience. Not only what's in the glass is important, because everything around it creates the ambience. By playing with transparency, colour, texture and light, all the senses will be tickled even before the first sip.
