

## Project Title: Cobalt blue

Hosted By: Studio Ineke van der Werff

### ***Project Introduction:***

As a ceramist I love to explore and challenge the materials and techniques I work with. I always try to find new and exciting ways to redefine my old craftsmanship. This year I've been working with cobalt oxide.

### ***About Organisation:***

Studio Ineke van der Werff designs and produces unique ceramics. With an experimental approach, Ineke creates plates, bowls, cups and vases that are each uniquely glazed. Her porcelain collections are both functional and tactile and invite to be touched. Besides tableware and home accessories, she designed a contemporary collection of porcelain jewellery.

Her ceramics studio is based in Utrecht, The Netherlands.
