

# Project Title: Behind the Shiny Glazing

**Hosted By:**

***Project Introduction:***

The Creative Residency in Arita programme was launched with the sponsorship of Saga Prefecture in 2016. Internationally active artists and designers were selected by committee members following an open-call application and review of past work and suitability for the residency. With ceramic production as the focal point, the programme offers support for creators from various backgrounds and specialisms with their creative activities. At the same time, they will be presented with the opportunity to interact with local residents and pair up with highly-skilled potters and craftsmen to collaborate artistically together.
